INDEX, RECORDS, FEES, PUBLICATIONS, ETC.

A card index has been prepared, embracing references to all acts of incorporation and amendments thereto of corporations created by the General Court since the year 1780, and to every certificate recorded in the office under general laws concerning joint stock and other corporations since the year 1851, when the first certificates were recorded. This index includes corporations created for the following purposes, arranged under their proper classification: manufacturing, trading, mercantile and industrial companies; railroads; street railways; steamboat, towing, express and coach companies; gas and electric, water supply, telegraph and telephone and water-power companies; proprietors of common lands; bridges and ferries, breakwaters, buoys, harbors and moorings, channels, locks and canals, dry docks and marine railways; insurance companies, savings banks, co-operative banks, credit unions and safe deposit and trust companies; asylums; homes; dispensaries, hospitals, medical societies; general charities; training schools for nurses; cemeteries, clubs; boards of trade; and associations for educational, religious, mechanical and professional purposes; also, certificates of condition of Massachusetts corporations since the year 1870 and those of foreign corporations since the year 1892.

The records of religious and benevolent associations date only from the year 1874, when the existing law for their formation, and for the filing of their certificates in the Secretary's office, went into effect. The office has no knowledge of the legal existence of those formed previously to 1874 under general law, as the certificates of such organizations were required to be “recorded in the office of the register of deeds for the county or district” wherein they were located; nor has it official information of any class of corporations dissolved by the supreme judicial or superior courts previous to 1880.

Every fee paid into the office for recording under the provisions of chapter 224 of 1870, and every subsequent corporation act (as well as those of some years previous), has been made a matter of record with the certificate itself, the money being paid into the treasury at the time designated by the statute.

Abstracts of the organization certificates and annual returns are made and published daily and weekly by the representatives of various newspapers and trade journals, for the accuracy of which this office is not responsible.
